Alfa's New Smile, New Future: A Life Transformed by Love

Seven years ago, Alfa was born as the fourth of eleven children. She is the only one born with cleft lip, and her parents were ashamed of her.

They took her back to the village to be raised by the grandmother, away from the eyes of the community.

Alfa has never entered a school. Her parents decided that with her cleft, education would be wasted on her. They planned to have her herd the camels.

When the family heard about the free cleft mission, they brought her to be screened in Garissa, Kenya. After her successful repair, the family is full of wonder at the transformation. The parents are now determined to send Alfa to school! And they thank the donors of Love Without Reason for changing their daughter's life.

A single act of love can light up a lifetime of darkness.

Thank you, Philipians, for your generosity in monthly giving.

Thank you to all our partners in prayer, because we cannot stop Until the World is Cleft Free!

SERVING WITH LOVE : A PEDIATRICIAN'S LIFE-CHANGING EXPERIENCE IN KENYA

I left my heart in Africa by *Dr Blessy Sucharitha*

Growing up in India, I always dreamed of changing lives in Africa. The stories and pictures I saw about the children of Somalia seemed to influence me as a child.

I never dreamed that I would use my clinical skills as a pediatrician and serve in Garissa, Kenya. It was overwhelming to see the need and the challenging conditions, but at the same time, I could clearly see God working through Love Without Reason –and especially through Santhosh and Susan –to bless this land. It was truly eye-opening to witness the transformation in people's lives after their surgeries. I am certain that Philip's dream of a cleft-free world is being fulfilled through Love Without Reason.

I was deeply moved by the unity within the team, the incredible team spirit, and the willingness of everyone to give their absolute best for this cause. I can truly say I received more than I gave—greater clarity of purpose and a deeper sense of gratitude to God for this life. I look forward to continuing the journey with Love Without Reason.

Project Butterfly: Spreading Health and Hope

We are excited to share a new opportunity to expand the impact of Project Butterfly Center—building a small manufacturing facility to produce Set Free Pads for vulnerable girls and women.

With a capital budget of \$75,000, this facility will create sustainable jobs and ensure consistent access to menstrual hygiene products, empowering women with dignity and independence.

Your support can make this vision a reality.

Would you consider partnering with us to build this life-changing facility?

The capital budget for this project is estimated at \$75,000.

Dear friends,

It is the third month of the year, and Love Without Reason is on the third cleft mission of the year.

We have never started a year with back-to-back transformative cleft missions in two continents, changing lives forever!

Please remember the teams in prayers as the mission begins on March 23 in Raxaul, India. Through the partnership with RBSK, the government agency guarantees to send 100 cleft patients for screening.

Providing free cleft repairs, education on human trafficking, and a demonstration of love and hope will leave a priceless impact.

You can join with us with your monthly gift of \$50 or \$100 a month to help change the life of a child like Alfa featured in this newsletter.

Thank you for your generosity and your support. We can only do this in partnership with you.

Until The World Is Cleft Free
Santhosh & Susan Mathews

Upcoming 2025 Camps

March 23–27, 2025 India

June 1–5, 2025 Kenya

June 8 – 17, 2025 Uganda
